Work Experience

Machine Setup and Operator

Ashworth Brothers - Winchester, VA

November 2018 to Present

1. Check off the machine to make certain it is running within the Job standards with proper sizes of the spiral and the length.
2. assemble belt as it is ran on the dual head
3. setup the machine which requires you to get the correct tools and spirals also to get all the size in spec as the order calls for and the mesh has to be a specific number of loops per inch
4. Fix any issues with the machines that may arise through the shift
5. work as a team to produce a quality product
